Summary

MERN stack developer with hands-on experience building scalable web applications and RESTful APIs. Skilled in React.js, Node.js, Express and MongoDB with strong focus on backend logic and authentication systems. Seeking an opportunity to contribute to real-world production applications and grow as a full-stack developer.

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB

Tools: Git, GitHub, Firebase, Razorpay

Projects

AI-Powered Job Portal Platform

- Built scalable backend using Node.js and modular architecture
- Developed resume analysis system for candidate-job matching
- Implemented JWT authentication and role-based access control
- Integrated Razorpay payment system for premium features

Food Delivery Web Application

- Built full-stack MERN application with real-time tracking
- Created role-based dashboards for users and admins
- Developed REST APIs and responsive UI

Language Exchange Platform

- Developed chat and video-based language exchange system
- Implemented real-time messaging features
- Integrated video calling with screen sharing

Education

Bachelor of Computer Applications (BCA) Raja Mahendra Pratap Singh University	2022 - 2025
Intermediate (XII) H.I Inter College	2021 - 2022
High School (X) H.I Inter College	2019 - 2020

Additional Information

- Strong problem-solving and debugging skills
- Quick learner with interest in modern web technologies
- Available for Full Stack / Frontend / Backend roles
